AMENDMENT AND RESPONSE TO FINAL OFFICE ACTION

Dear Sirs:

In response to the Final Office Action of August 10, 2006, please amend the above-identified application as follows:

Amendments to the Claims are reflected in the listing of claims, which begins on page 2 of this paper.

Remarks/Arguments begin on page 7 of this paper.

INTRODUCTORY COMMENTS

Claims 1, 4-31 and 34-38 are pending in the present application.

Claims 5-7 are rejected under 35 U.S.C. § 112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 4, 31 and 34 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Slepian et al (Noiseless coding of Correlated Information Sources, IEEE Transaction on Information Theory, Vol. IT-19 No. 4, July 1973) in view of Yan et al. (On Instantaneous Codes for Zero Error Coding of Two Correlated Sources, IEEE 0-7803-5857-0/00).

Applicants respectfully request reconsideration of the rejected claims.
